

2026 Notice of Motion, proposed by John Griffiths

I would like to propose a change to the Pre 77 class to bikes that can be built with parts available before 31st Dec 1979.

Machines must be twin shocked or non-linkage cantilever suspension.

Engines air cooled and drum brakes.

Modern shocks permitted.

Replica frames can be used but made to same dimensions as original.

2026 Notice of Motion, proposed by John Griffiths

I would like to propose an award for the best Grade A newcomer that's been upgraded from grade B the previous year.

I propose an award for best Grade B newcomer that's been upgraded from Grade C the previous year.

2026 Notice of Motion, proposed by Ryan Thompson

I would like to propose a motion for the upcoming AGM please. I would like to propose that we stop riders riding downgrades in a championship race. This comes from our own personal experience regarding that rule this year. Riders that run down grades are running at the front and risk compromising the championship unnecessarily for those trying to win.
